Like every other BMW engine made after 1990, the N52 came with VANOS.

Essentially, this was BMW's V-TEC equivalent, which modulated the engine's valves for better fuel efficiency or

more power.

Unfortunately, the solenoids which do the modulation can fail after about 70,000 miles, BMW Tuning reports.

History of the N52 Engine There were 2 versions, the N52B25, and N52B30. The differences between these engines are the N52B25 has a smaller bore and stroke, so pistons, crank etc are different, but they share the same block and head. The N52 was a straight 6 NASP engine and won a Wards best engine award in 2007 and
