Entrepreneurship skills: literature and policy review

Most entrepreneurs and motivated professionals know the importance of investing in themselves, from building valuable skills to improving their strengths over time. The skills that are important evolve with time and are different from what might have been most important a decade or two ago. A lot of that is based on technology, but some of it also is based on the way employees want to be able to work.

The Skills of an Entrepreneur to Be Successful

Our findings confirm a positive impact of entrepreneurship in general on economic growth and also illustrate that export orientation makes a significant additional contribution to economic growth. This suggests that in particular export-driven new ventures will contribute to the generation of knowledge spillovers, increased competition, and increased diversity, ultimately resulting in higher economic growth rates.
