Light, Gesture & Color - KelbyOne
It can enhance or destroy color. The effect of light on gesture is different. Gesture holds its own no matter what the light is. The light can enhance it, but it cannot destroy it. Why? Gesture has identity and it is less vulnerable than color, which can lose its identity to light. Gesture will survive whatever kind of light you have.

Light and color are fairly self explanatory whereas gesture is a bit more difficult to explain and understand. In Light, Gesture & Color Jay does a nice job of explaining gesture and how it relates to light and color by using examples of his own work along with stories and anecdotes about what he was seeing when he pressed the shutter.
