...

The seventeenth-century English revolution by transferring State power to the bourgeoisie made possible the full development of all the resources of English society in the eighteenth century. A transition to socialism will be necessary to win the same result in England to-day.] State power was being used to prevent the growth of a national market.

The question of how newsbook storytelling contributed to the cultivation and development of thinking about particular political practices during the English Civil Wars in the 1640s needs systematic attention. A sustained examination of newsbook narratives reveals assumptions about political order, activity and legitimacy that were being continuously reiterated in public discourse.

This book is an early work from a scholar who would become one of the 20th century's greatest English historians. 'The English Revolution, 1640' (1940) was published when Hill was still only 28 years old and a member of the CPGB. He subsequently went on to modify, develop and refine his Marxian analysis of the English Revolution.

How did ordinary people, caught up in the violent political and social dislocation of the English Revolution, perceive such astonishing events? The Battle of the Frogs & Fairford's Flies attempts to answer this question through a close study of some 500 newsbooks and pulp publications produced from 1640 to 1660.
